

Fund Update

for the year ended 31 March 2024

This fund update was first made publicly available on 26 June 2024

What is the purpose of this update?

This document tells you how the ANZ Property Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

This is a single sector fund that aims to provide investors with long term capital growth through exposure to listed property in New Zealand and around the world.

| | |
|---------------------------------|----------------|
| Total value of the fund | \$5,886,556 |
| Number of investors in the fund | 323 |
| The date the fund started | 30 August 1996 |

What are the risks of investing?

Risk indicator for the ANZ Property Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific risk

In addition to the general investment risks, you should be aware this fund is concentrated in a particular asset class and not diversified across multiple asset classes. At any given point, market conditions that cause one asset class to perform well may cause another asset class to perform poorly. This could result in negative or lower than expected returns compared to a fund which is diversified across multiple asset classes.

How has the fund performed?

| | Average over past 5 years ¹ | Past year |
|---|--|-----------|
| Annual return (after deductions for charges and tax) | 1.36% | 13.49% |
| Annual return (after deductions for charges but before tax) | 1.67% | 16.04% |
| Market index annual return (reflects no deduction for charges and tax) | 3.08% | 13.68% |

The market index annual return is based on 25% S&P/NZX All Real Estate (Industry Group) Gross with Imputation, 25% S&P/ASX 200 A-REIT (Sector) (TR) (100% hedged to NZD) and 50% FTSE EPRA/NAREIT Developed Rental Index Net TRI (100% hedged to NZD). Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph^{1, 2, 3}

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2024.

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in the ANZ Property Fund are charged fund charges. In the year to 31 March 2024 these were:

| | % net asset value |
|--|--|
| Total fund charges (estimated)^{4, 5} | 2.37% |
| Which are made up of - | |
| Total management and administration charges (estimated) | 2.37% |
| Including - | |
| Manager's basic fee ^{6, 7} | 2.25% |
| Other management and administration charges (estimated) ⁸ | 0.12% |
| Total performance-based fees | 0.00% |
| Other charges | Dollar amount per investor or description of how charge is calculated |

NIL

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). We may deduct a contribution fee of up to 5% of each payment for the purchase of units. This fee is agreed between you and your Adviser and is deducted from the amount contributed.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$1,349.00 (that is 13.49% of his initial \$10,000). Craig also paid \$0.00 in other charges. This gives Craig a total return after tax of \$1,349.00 for the year.

What does the fund invest in?

Actual investment mix⁹

This shows the types of assets that the fund invests in.

Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Further information

You can also obtain this information and some additional information from the offer register at disclose-register.companiesoffice.govt.nz.

Notes

- 1 In December 2021, ANZ New Zealand Investments Limited (ANZ) took over from AMP Capital Investors (New Zealand) Limited (AMP Capital), now known as Macquarie Asset Management (NZ) Limited (Macquarie), as the underlying fund manager for this fund. From 1 June 2019 through to December 2021, the underlying investment of this fund changed from the Australasian Property fund managed by AMP Capital to the Property fund managed by AMP Capital. The fund performance in the table therefore shows the performance of both investment strategies as well as fund performance which relates to both ANZ and AMP Capital, now known as Macquarie.
- 2 Up until 1 January 2018 the return calculations included rebates of management fees which have been paid to qualifying investors. From 1 January 2018 the return calculations exclude any rebates paid to qualifying members. The returns shown incorporate the combined returns from both these calculation methods. No allowance had been made for any loyalty bonus which certain investors may be entitled to.
- 3 The returns shown for 2016 have been impacted as a result of a tax liability associated with the provision of the loyalty bonus (a feature of the scheme). This has resulted in a downward adjustment in unit prices and will affect the comparability of the 2016 returns against other years.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The total fund charges exclude loyalty bonuses which have been paid to certain members and the cost of future tax obligations on loyalty bonuses.
- 6 The Manager's basic fee is an estimated bundled fee for the combined services of the Supervisor, underlying investment management fees and an Adviser fee being up to 0.45%.
- 7 Members may receive fee rebates based on qualifying criteria. These rebates have not been included in the calculation of the fees. Members can refer to their product documentation, or contact AMP at the details below, to identify the fee structure applicable to them.
- 8 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 9 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
