

Fund Update

for the quarter ended 30 June 2024

This fund update was first made publicly available on 26 July 2024

What is the purpose of this update?

This document tells you how the AMP Growth Fund No. 2 has performed and what fees were charged. The document will help you to compare the fund with other funds. AMP Wealth Management New Zealand Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund has a well-diversified portfolio that aims to provide growth, primarily through holding growth assets diversified with a lower allocation to lower-risk income assets. The fund aims to achieve medium to high returns, in exchange there will be larger movements up and down in the value of your investments. This fund is closed to new investors.

Total value of the fund	\$40,278,700
Number of investors in the fund	1910
The date the fund started	28 July 2016

What are the risks of investing?

Risk indicator for the AMP Growth Fund No. 2:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-profiler.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Other factors impact investors' returns that are not reflected in the risk indicators. These include investment strategy and selection of underlying fund managers. There will be times when market conditions result in a particular style doing better or worse than others. Investors' returns will move up and down accordingly. To reduce this risk, AMP actively monitors BlackRock to ensure they align with our investment strategy guidelines. Details of other specific risks, and other general risks, can be found in the Other Material Information (OMI) on the Scheme's offer register entry at disclose-register.companiesoffice.govt.nz.

How has the fund performed?

	Average over past 5 years ^{1, 2, 3}	Past year ^{1, 3}
Annual return (after deductions for charges and tax)	4.29%	9.22%
Annual return (after deductions for charges but before tax)	4.51%	10.35%
Market index annual return (reflects no deduction for charges and tax)	7.58%	11.98%

The market index annual return is based on a composite index, calculated using the target investment mix weightings of the underlying market indices that the fund invests into. Some components of the composite indices for this fund have changed in the past quarter to align with the underlying fund. For details of the indices used to calculate the composite index, please see the Statement of Investment Policy and Objectives for your product. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.

Annual return graph^{1, 2, 3}

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2024.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AMP Growth Fund No. 2 are charged fund charges. In the year to 31 March 2024 these were:

	% of net asset value
Total fund charges (estimated) ⁴	1.30%*
Which are made up of -	
Total management and administration charges (estimated)	1.30%
Including -	
Manager's basic fee	1.16%
Other management and administration charges (estimated) ⁵	0.14%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor or description of how charge is calculated
Member fee	\$23.40

* Based on a decrease in the Manager's basic fee and Other management and administration charges, the Manager estimates that the total fund charges for the next scheme year will reduce to 0.77% of the net asset value.

Different member fees or fee rebates may apply to some members. Any different fees or rebates will be set out in the Member Booklet or supplement, if applicable, which you can request from your Adviser.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document on the entry relating to the offer of interests in the AMP KiwiSaver Scheme maintained on the offer register (disclose-register.companiesoffice.govt.nz) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Craig had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Craig received a return after fund charges were deducted of \$922.00 (that is 9.22% of his initial \$10,000). Craig also paid \$23.40 in other charges. This gives Craig a total return after tax of \$898.60 for the year.

Notes

- 1 On 24 May 2024 the phased transition was completed and AMP Wealth Management Limited (AMPWM) replaced Nikko Asset Management Limited (Nikko AM) as the underlying fund manager of the Nikko AM Growth Fund. The fund performance in the table and graph relates to both AMPWM and Nikko AM.
- 2 We have used a composite index to prepare the table and bar graph, as there was no market index available for some of the relevant assets. The composite index is calculated using the target investment mix weightings of the underlying market and peer group indices for the asset classes that the fund invests into. A composite index may be a less reliable indicator of performance than an appropriate market index. The composite index used in this fund update is not directly relevant for all of the underlying assets of this fund. In the table and bar graph, the return for the market index reflects no deduction for fund charges, trading expenses and tax, and the return for the peer group index reflects deductions for fund charges and trading expenses, but before tax. Additional information about the market and peer group indices is available in the Statement of Investment Policy and Objectives for your product which is available on the offer register at disclose-register.companiesoffice.govt.nz. Index disclaimers can be found on the AMP website at amp.co.nz/indexdisclaimers.
- 3 The indices used to calculate index returns for this fund includes the EurekaHedge Fund of Funds Index, which is a peer group index until 31 May 2024. We have aligned the timing for calculating returns for that index with the approach taken by Nikko AM, and accordingly the index return in the annual return graph has been revised slightly from previous fund updates which use those returns.
- 4 The total fund charges are inclusive of any applicable GST.
- 5 The other management and administration charges include estimates of underlying fund charges provided by underlying fund managers.
- 6 The actual investment mix and top ten investments have been calculated excluding cash and cash equivalents held for operational purposes.
